Dear Parent/Guardian,

This year, we will be beginning a new program at Canton Jr./Sr. High School. The purpose of this program is to help any and all junior high students reach their full potential in both Math and English. Our plan is to supplement and enrich the core curriculum by providing students educational opportunities in Math and English in addition to their regular core class schedule. This will enable us to provide a more personalized and enriching educational experience to students who participate. In order to do this, we would need your permission to schedule your child during his or her regularly scheduled period one or two classes one time per week. Our current period one and two classes consist of Tech. Ed, Health, Business, Computer Science, Chorus, and Study Hall.

This new program is not meant for remediation and is being offered to all junior high students regardless of academic standing. We hope that you consider "enrolling" your student for this opportunity which will begin on approximately 10/1/20 and continue throughout the entire school year. To enroll your student, please complete the permission form below and return to your homeroom teacher.

Please complete and return to your homeroom teacher.

I would like to enroll my student in the following supplemental classes for the 20-21 school year (Please circle one or both below).

MATH ENGLISH
